

TRIFONIX MUSIC

OFFICIAL STYLE GUIDE

LAST UPDATED 11/24/2018

Here you will find all the requirements needed to fit the publishing requirements we have and that our distributor require. Please read through this before you ever submit a song to us. This will shorten the amount of processing time and scheduling time, leading to an earlier release date.

PART I - AUDIO FORMAT

There are a long list of many audio formats out there and choosing is one is hard. We ourselves have to constrain ourselves to certain formats, and here is what we accept:

Preferred:

- .wav (WAVE)
- .flac (Free Lossless Audio Codec)

Continue reading below

Accepted:

- .wav (WAVE)
- .flac (Free Lossless Audio Codec)
- .mp3 (Moving Picture Experts Group Layer - 3)
- .ogg (Xiph.org Foundation OGG Vorbis)
- .wma (Windows Media Audio Lossy)

All audio files must be 44.1kHz at 24bit

Submission of any other file formats such as .AAC and custom file extensions such as .trifonix will be denied immediately and not go under review.

If you are submitting through JotForm, the max audio size is 10MB

If you are submitting through LabelRadar, .mp3 is the only accepted audio format.

SoundCloud links of PRIVATE tracks are accepted. Google Drive links are not allowed.

PART II - NAMING CONVENTIONS

Digital stores are very strict when it comes to naming yourself or your song. To prevent any delays, we have listed what we expect in naming.

Artist Alias

Here are some examples of accepted artist alias formats:

- Trifonix Music
- T.R.I.F.O.N.I.X. (as in it's an acronym)
- Trifonix

Examples of unwanted names:

- TRIFONIX (as it's not an acronym)
- TrifonixMusic (there's is no space between words)
- TR1FON13 (there's random characters)
- TriFoNix (there's random casing)

If your artist alias falls under the unwanted list, we will “flat” out your name to basic format. If you wish to apply for an exemption, email us anytime with one of the following criteria:

- A Facebook/Instagram/Twitter page with at least 100 likes in total or in 1 post or with 100 followers.
- A YouTube channel with either 100 subscribers or with 100 total views or one video with 100 views.
- A website showcasing previous releases (along with a digital store link would be preferable).

Track Names

Everything under the Artist Alias section applies here, except that exemptions are not permitted and all names will be flattened out without prior consultation.

- Featured artists fall under all of the listed criteria above
- Names with characters not in the Latin alphabet such as Cyrillic (Russian styled characters) and in Asian Alphabets (such as Pinyin) are accepted. Hindi & Hebrew alphabets are not allowed.
